

K Transport have been maintaining our Fleet of trailers for a number of years, the maintenance provided by K Transport ensures that we have maximum efficiency and minimal downtime. Always ready to help should we have any maintenance issues nationwide, they are also very flexible and always try to meet our demands which are high due to the technical fleet that we run.

K Transport also carried out our MOT prep / test and whilst with K Transport we have had a phenomenal pass rate.

I would highly recommend K Transport as Maintenance provider
